

The Online Prospecting System (OPS) is an innovative approach to increase prospecting effectiveness. OPS allows each user to own websites that can be customized to their needs. The site has the ability to capture new leads while allowing them to create a unique recruiting experience for each contact/lead, as well as in-depth analytics that track each prospect's interest level and interaction. The OPS tool is a two-part system, which allows the front end user a unique introduction to the business, and the back end user the necessary tools geared towards interacting with the new prospect(s).

OPS SIGNUP IN THREE EASY STEPS: (takes 5 minutes:)

1. Go to nuskinusa.com and select “OPS” at the bottom of the “My Account” drop down account in the top ribbon.

2. Enter your Nu Skin login information
3. From here you will be prompted to enter a sitename, enter payment information, and set up your profile.
