HOW TO USE IT

STEP 1 CLEAR TREATMENT CLEANSER	Apply an ample amount of product evenly to moistened face. For optimal results, use with ageLOC® LumiSpa® device for two minutes morning and night and rinse thoroughly. Follow with Step 2.
STEP 2 CLEAR TONER	After Step 1, cover the entire affected area with a thin layer one to three times daily using a clean cotton pad, avoiding the eye area. Allow to dry before applying next product. Because excessive drying of the skin may occur, start with one application daily, then gradually increase to two or three times daily if needed or as directed by a doctor. If bothersome dryness or peeling occurs, reduce application to once a day or every other day. Use daily morning and night.
STEP 3 (PM) CLEAR SERUM	After Step 2, apply a thin layer of serum to the entire face to complete your nighttime skincare routine.
STEP 3 (AM) CLEAR AM MOISTURIZER	After Step 2, apply a generous amount of moisturizer to complete your daytime skincare routine.
AS NEEDED CLEAR SPOT GEL	Cleanse the skin thoroughly before applying. Cover the entire affected area with a thick layer up to three times daily. Because drying of the skin may occur, begin with one application daily, gradually increasing applications as needed. If dryness or peeling occurs, reduce application to once a day or every other day.
